NAMED ONE OF THE TOP 10 ROCK MEMOIRS OF ALL TIME BY ROLLING STONE From Chic to Daft Punk, Nile Rodgers is the creative force behind some of the biggest hits ever recorded. Here is the story of how global pop's greatest genius transformed his own dramatic life into the brilliantly joyful playlist of a generation. You will hear a Nile Rodgers song today. It will make you happy. In the 1970s and 1980s, Nile Rodgers wrote and produced the songs that defined the era and everything that came after: "Le Freak," "Good Times," "We Are Family," "Like a Virgin," "Let's Dance," "I'm Coming Out," "Rapper's Delight"—and worked with every influential pop star to create a string of enduring hits, from Diana Ross and Madonna to Duran Duran and David Bowie. Even today, he is still musically relevant: writing and performing record-breaking hits like "Get Lucky" with Daft Punk and Pharrell. But before he reinvented pop music, Nile Rodgers invented himself. From jamming with Jimi Hendrix in a Greenwich Village haze to the decadence of the disco era to witnessing the birth of Madonna on the Danceteria dance floor, *Le Freak* traces one of the greatest musical journeys of our time. Praise for *Le Freak* "[An] amazing memoir . . . steeped in the incestuous energy of the times: Punk, funk and art rock mixed it up in the downtown clubs, where musicians partied together and shared ideas. . . . *Le Freak* has plenty of sex and drugs. But it's the music that makes it essential. . . . Rodgers gave those dreams a beat—and helped invent pop as we know it today."—Rob Sheffield, *Rolling Stone* "This book is an absolute knockout: exhilarating, warm, and courageous, deeply moving and

deeply funny. *Le Freak* is as much about the greatness of life as it is about Nile Rodgers's extraordinary musical journey. As Rodgers well knows, the best music is the stuff we feel, the stuff that speaks to us and won't let go. *Le Freak* does all that and much more. This is truly one of the best books ever written about art, music, life, and the way we grow to be exactly who we are. Actually, one of the best books period."—Cameron Crowe "A coming-of-age tale every bit as impressive as the musical insights and star-time chronicles that follow."—The New York Times Book Review "Consistently entertaining . . . His legacy as a funk-rock visionary is assured, and his autobiography serves as further proof that disco does not suck."—San Francisco Chronicle "An unforgettable, gripping book."—The Sunday Times (UK) "Name a star and you can bet they're in this book, playing or partying with Rodgers. But far from being a succession of name-dropping anecdotes, this autobiography is a wonderfully funny, moving and wise reflection upon the important things in life: the people you love and the things you create."—The Sunday Telegraph (UK) "Rodgers's page-turning memoir is packed with emotionally charged vignettes of a tumultuous childhood and equally dramatic adulthood that found him awash in cash, cars, and celebrities. . . . His storytelling skills propel the reader through the book, making the ending all the more jarring. Remarkable for its candor, this rags-to-riches story is on the year's shortlist of celebrity memoirs."—Publishers Weekly (starred review) Look who's making dinner! Twenty-one of our favorite writers and chefs expound upon the joys—and perils—of feeding their families. Mario Batali's kids gobble up monkfish liver and foie gras. Peter Kaminsky's youngest daughter won't eat anything at all. Mark Bittman reveals the four stages of learning to cook. Stephen King offers tips about what to cook when you don't feel like cooking. And Jim Harrison shows how good food and wine trump expensive cars and houses. This book celebrates those who toil behind the stove, trying to nourish and please. Their tales are accompanied by more than sixty family-tested recipes, time-saving tips, and cookbook recommendations, as well as New Yorker cartoons. Plus there are interviews with homestyle heroes from all across America—a fireman in Brooklyn, a football coach in Atlanta, and a bond trader in Los Angeles, among others. What emerges is a book not just about food but about our changing families. It offers a newfound community for any man who proudly dons an apron and inspiration for those who have yet to pick up the spatula. "A collection of writings about six of America's national parks (Acadia, Great Smoky Mountains, Rocky Mountains, Zion, Yosemite, and Yellowstone National Parks) with introductory text and commentary by Dave and Ilyssa Kyu."--Provided by publisher. At any given moment, approximately 60,000 people are airborne over the U.S. With that many strangers crammed into metal tubes hurtling across the country at 30,000 feet, unusual things are bound to happen. In 2005, a career flight attendant named Betty began collecting stories of the odd and outrageous things that happen in airplanes. Betty has been a flight attendant for a major airline for nearly a

quarter of a century. In that time, she has taken over 12,500 flights, spent more than 25,000 hours in the air, and served some six million passengers. Not all of the passengers are normal, and not all of the flights are routine. Operating under the premise that “what doesn't kill you, gives you a great story” Betty began recording tales of the weird and wonderful world of flying, sharing interesting events in a podcast entitled, “Betty in the Sky with a Suitcase” which has now been turned into a book. Joining the ranks of *Evicted*, *The Warmth of Other Sons*, and classic works of literary non-fiction by Alex Kotlowitz and J. Anthony Lukas, *High-Risers* braids personal narratives, city politics, and national history to tell the timely and epic story of Chicago's Cabrini-Green, America's most iconic public housing project. Built in the 1940s atop an infamous Italian slum, Cabrini-Green grew to twenty-three towers and a population of 20,000—all of it packed onto just seventy acres a few blocks from Chicago's ritzy Gold Coast. Cabrini-Green became synonymous with crime, squalor, and the failure of government. For the many who lived there, it was also a much-needed resource—it was home. By 2011, every high-rise had been razed, the island of black poverty engulfed by the white affluence around it, the families dispersed. In this novelistic and eye-opening narrative, Ben Austen tells the story of America's public housing experiment and the changing fortunes of American cities. It is an account told movingly through the lives of residents who struggled to make a home for their families as powerful forces converged to accelerate the housing complex's demise. Beautifully written, rich in detail, and full of moving portraits, *High-Risers* is a sweeping exploration of race, class, popular culture, and politics in modern America that brilliantly considers what went wrong in our nation's effort to provide affordable housing to the poor—and what we can learn from those mistakes. Masterpieces of myth and terror about modern gods from technology to drugs to materialism—“fantasy at its most bizarre and unsettling” (*The New York Times*). As Earth approaches Armageddon, a man embarks on a quest to confront God in the Hugo Award-winning novelette, “The Deathbird.” In New York City, a brutal act of violence summons a malevolent spirit and a growing congregation of desensitized worshippers in “The Whimper of Whipped Dogs,” an Edgar Award winner influenced by the real-life murder of Queens resident Kitty Genovese in 1964. In “Paingod,” the deity tasked with inflicting pain and suffering on every living being in the universe questions the purpose of its cruel existence. *Deathbird Stories* collects these and sixteen more provocative tales exploring the futility of faith in a faithless world. A legendary author of speculative fiction whose best-known works include *A Boy and His Dog* and *I Have No Mouth, and I Must Scream*—and whose major awards and nominations number in the dozens, Harlan Ellison strips away convention and hypocrisy and lays bare the human condition in modern society as ancient gods fade and new deities rise to appease the masses—gods of technology, drugs, gambling, materialism—that are as insubstantial as the beliefs of those who venerate them. In addition to his *Nebula*, *Hugo*, *World Fantasy*, *Bram Stoker*, *Edgar*,

and other awards, Ellison was called “one of the great living American short story writers” by the Washington Post—and this collection makes it clear why he has earned such an extraordinary assortment of accolades. Stories include: “Introduction: Oblations at Alien Altars” “The Whimper of Whipped Dogs” “Along the Scenic Route” “On the Downhill Side” “O Ye of Little Faith” “Neon” “Basilisk” “Pretty Maggie Moneyeyes” “Corpse” “Shattered Like a Glass Goblin” “Delusion for a Dragon Slayer” “The Face of Helene Bournouw” “Bleeding Stones” “At the Mouse Circus” “The Place with No Name” “Paingod” “Ernest and the Machine God” “Rock God” “Adrift Just Off the Islets of Langerhans: Latitude 38° 54' N, Longitude 77° 00' 13" W” “The Deathbird”

It also discusses new players in the world of white power websites and music and shares new research on how people exit hate groups. Whether you are newly hired or on the track to becoming a flight attendant this guide will help you navigate through your new adventures. With advice from finding your new crash pad to love relationships to how to pack for your trips and everything in between this is a must read for anyone thinking about a career in the skies. An entertaining investigation into the biology and psychology of why we sacrifice for other people Researchers are now applying the lens of science to study heroism for the first time. How do biology, upbringing, and outside influences intersect to produce altruistic and heroic behavior? And how can we encourage this behavior in corporations, classrooms, and individuals? Using dozens of fascinating real-life examples, Elizabeth Svoboda explains how our genes compel us to do good for others, how going through suffering is linked to altruism, and how acting heroic can greatly improve your mental health. She also reveals the concrete things we can do to encourage our most heroic selves to step forward. It's a common misconception that heroes are heroic just because they're innately predisposed to be that way. Svoboda shows why it's not simply a matter of biological hardwiring and how anyone can be a hero if they're committed to developing their heroic potential. "One of the most compelling accounts of a climb and the climbing ethos that I've ever read." --Sebastian Junger *The Impossible Climb* climaxes with Alex Honnold's unprecedented, almost unimaginable feat: a 3,000-foot vertical climb up El Capitan in Yosemite, without a rope. Mark Synnott tells the story in the context of a deeply reported account of his ten-year friendship with Honnold, multiple climbing expeditions, and the climbing ethos they share. The climbing community had long considered a "free solo" ascent of El Capitan an impossible feat so far beyond human limits that it was not worth thinking about. When Alex Honnold topped out at 9:28 am on June 3, 2017, having spent fewer than four hours on his historic ascent, the world gave a collective gasp. His friend Tommy Caldwell, who free climbed (with a rope) the nearby Dawn Wall in 2015, called Alex's ascent "the moon landing of free soloing." The New York Times described it as "one of the great athletic feats of any kind, ever." It was "almost unbearable to watch,"

writes Synnott. This majestic work of personal history delves into a raggedy culture that emerged decades earlier during Yosemite's Golden Age, when pioneering climbers like Royal Robbins and Warren Harding invented the sport that Honnold would turn on its ear. Synnott paints an authentic, wry portrait of climbing history, profiling Yosemite heroes John Bachar, Peter Croft, Dean Potter, and the harlequin tribe of climbers known as the Stonemasters. A veteran of the North Face climbing team and contributor to National Geographic, Synnott weaves in his own amateur and professional experiences with poignant insight and wit. Tensions burst on the mile-high northwest face of Pakistan's Great Trango Tower; photographer/climber Jimmy Chin miraculously persuades an intransigent official in the Borneo jungle to allow Honnold's first foreign expedition, led by Synnott, to continue; armed bandits accost the same trio at the foot of a tower in the Chad desert . . . The Impossible Climb is an emotional drama driven by people exploring the limits of human potential and seeking a perfect, dialed-in dance with nature. They dare beyond the ordinary, but this story of the sublime is really about all of us. Who doesn't need to face down fear and make the most of the time we have? A New York Times bestseller For millions of people, travel by air is a confounding, uncomfortable, and even fearful experience. Patrick Smith, airline pilot and author of the popular website www.askthepilot.com, separates fact from fallacy and tells you everything you need to know: • How planes fly, and a revealing look at the men and women who fly them • Straight talk on turbulence, pilot training, and safety. • The real story on delays, congestion, and the dysfunction of the modern airport • The myths and misconceptions of cabin air and cockpit automation • Terrorism in perspective, and a provocative look at security • Airfares, seating woes, and the pitfalls of airline customer service • The colors and cultures of the airlines we love to hate **COCKPIT**

CONFIDENTIAL covers not only the nuts and bolts of flying, but the grand theater of air travel, from airport architecture to inflight service to the excitement of travel abroad. It's a thoughtful, funny, at times deeply personal look into the strange and misunderstood world of commercial flying. "Patrick Smith is extraordinarily knowledgeable about modern aviation...the ideal seatmate, a companion, writer and explorer." —Boston Globe "Anyone remotely afraid of flying should read this book, as should anyone who appreciates good writing and great information." —The New York Times, on **ASK THE PILOT**. A twelve-year veteran flight attendant shares the good, bad and naughty of the job. Real-life flight attendant Heather Poole has written a charming and funny insider's account of life and work in the not-always-friendly skies. **Cruising Attitude** is a Coffee, Tea, or Me? for the 21st century, as the author parlays her fifteen years of flight experience into a delightful account of crazy airline passengers and crew drama, of overcrowded crashpads in "Crew Gardens" Queens and finding love at 35,000 feet. The popular author of "Galley Gossip," a weekly column for AOL's award-winning travel website Gadling.com, Poole not only shares great stories, but also explains the ins and

outs of flying, as seen from the flight attendant's jump seat. In his debut book, 'Fasten Your Seat Belts And Eat Your F*cking Nuts', Joe Thomas - aka Flight Attendant Joe - takes you on an inappropriate storytelling journey about what really happens while you sit comfortably (unless you are in a middle seat, in that case - he's sorry) onboard a climate controlled airplane while sucking down cups of soda, snacking on unsalted peanuts, and playing dumb when you get caught smoking in the lavatory. Have you ever wondered what happens behind the scenes at 38,000 feet? Does the thought of banging a flight attendant intrigue you? What about a pilot? Do you regularly attempt at eavesdropping on flight attendant conversations while waiting to use the lavatory on a red-eye flight? If so, then this book was written for you. Nobody said traveling was easy and Joe Thomas has the stories to prove it. 'Fasten Your Seat Belts And Eat Your Fucking Nuts' will make you hungry for more than just another bag of pretzels. Each page drips with gossip, drama, and his own personal confrontations with passengers and coworkers that will leave you gasping for air one minute, and then busting out laughing the next. Joe's honest, heartwarming, - dick-slapping-in-your-face-comedy - will have you turning pages quicker than a hooker turns tricks. Flying the not-so-friendly skies... In her more than fifteen years as an airline flight attendant, Heather Poole has seen it all. She's witnessed all manner of bad behavior at 35,000 feet and knows what it takes for a traveler to become the most hated passenger onboard. She's slept in flight attendant crashpads in "Crew Gardens," Queens—sharing small bedrooms crammed with bunk beds with a parade of attractive women who come and go at all hours, prompting suspicious neighbors to jump to the very worst conclusions. She's watched passengers and coworkers alike escorted off the planes by police. She can tell you why it's a bad idea to fall for a pilot but can be a very good one (in her case) to date a business-class passenger. Heather knows everything about flying in a post-9/11 world—and she knows what goes on behind the scenes, things the passengers would never dream. Heather's true stories in *Cruising Attitude* are surprising, hilarious, sometimes outrageously incredible—the very juiciest of "galley gossip" delightfully intermingled with the eye-opening, unforgettable chronicle of her fascinating life in the sky. For nearly 50 years, *Climbing Magazine's* goal has been to inspire and entertain with compelling coverage of climbing in all its forms, from bouldering to the big walls, trad rock to sport climbing, ice climbing to mountaineering. *Vantage Point* offers a collection of the most inspiring, thought-provoking, and humorous stories featured in *Climbing* over the past five decades—an anthology that will move you to grab your chalkbag, rope, and harness. This hilarious book confronts every aspect of a flight attendant's absurd world--from the endless array of passenger demands, to the secret language of flight attendants, and a unique version of the Safety Demo Shuffle. Fasten your seatbelt and prepare yourself for a side-splitting perspective on the trials and tribulations of air travel. In sixteen stories, T.C. Boyle tears through the walls of contemporary society to reveal a world at once comic and tragic,

droll and horrific. Boyle introduces us to a death-defying stuntman who rides across the country strapped to the axle of a Peterbilt, and to a retired primatologist who can't adjust to the "civilized" world. He chronicles the state of romance that requires full-body protection in a disease-conscious age and depicts with aching tenderness the relationship between a young boy and his alcoholic father. These magical and provocative stories mark yet another virtuoso performance from one of America's most supple and electric literary inventors. Flight attendant life has its perks, but being "normal" isn't one of them. In her second book in the Jetlagged Comic Collection, cartoonist and flight attendant Kelly Kincaid delivers another round of colorful comics illustrating the absurd yet true lives of flight crews. Foreword by New York Times Best Seller Heather Poole. The founder of Utne Reader chronicles his adventures on the frontlines of American culture—from the Vietnam era to the age of Trump—as a spiritual seeker, antiwar activist, and minor media celebrity. "Fascinating . . . a remarkable piece of social history."—Bill McKibben, author of *Falter: Has the Human Game Begun to Play Itself Out?* *Far Out Man* is the story of a life-long seeker who was occasionally a finder as well. In 1984, Eric Utne founded Utne Reader, a digest of new ideas and fresh perspectives percolating in the arts, culture, politics, business, and spirituality. With the tag line "The Best of the Alternative Press," the magazine was twice a finalist for a National Magazine Award and grew to more than 300,000 paid circulation. In the nineties, the magazine promoted the Neighborhood Salon Association to revive the endangered art of conversation and start a revolution in people's living rooms. More than 18,000 people joined, comprising nearly 500 salons across North America. Utne devoted the magazine to bringing people together to help make the world a "little greener and a little kinder." *Far Out Man* serves as a chronicle of both an individual life and a generation, covering the conflicts of the Vietnam era, the hopes and excesses of the sexual revolution and the Me Decade, the idealism and depredations of the entrepreneurial eighties and nineties, and the promise and perils of the digital age. Ultimately, *Far Out Man* is the story of Eric Utne's lifelong search for hope, how he lost it, and what he found on the other side that sustains him in his darkest moments. It is a book dedicated to helping all seekers become finders. After years of living vicariously through the heroines in her novels, bestselling author Eloisa James takes a leap that most of us can only daydream about. She sells her house, leaves her job as a Shakespeare professor, and packs her husband and two protesting children off to Paris. Grand plans are abandoned as she falls under the spell of daily life as a Parisienne — exquisite food, long walks by the seine, reading in bed, displays of effortless chic around every corner, and being reminded of what really matters in a place where people seem to kiss all the time. Against one of the world's most picturesque backdrops, she copes with her Italian husband's notions of quality time; her two hilarious children, ages eleven and fifteen, as they navigate schools — not to mention puberty — in a foreign language; and her formidable mother-in-law, marina, who believes dogs should be fed

prosciutto and wives should live in the kitchen. An irresistible love letter to a city that will make you want to head there, *Paris in Love* is also a joyful testament to the pleasures of savouring life. An inspirational journey from tragedy to triumph

In 2003, nineteen-year-old Private J.R. Martinez was on a routine patrol when the Humvee he was driving hit an antitank mine in Iraq, resulting in severe injuries and burns on his face and more than one-third of his body. Out of that tragedy came an improbable journey of inspiration, motivation, and dreams come true. In *Full of Heart*, Martinez shares his story in intimate detail, from his upbringing in the American South and his time in the Army to his recovery and the indomitable spirit that has made him an inspiration to countless fans. J.R. Martinez always had a strong spirit. Raised in Bossier City, Louisiana, and then Hope, Arkansas, by a single mother from El Salvador, he was well known at school for his good looks and his smart mouth. At seventeen, showing an early determination and drive that would become one of his trademark qualities, J.R. convinced his mom to move to Dalton, Georgia, where he believed he would have a better chance of being recruited to play college football. His positive attitude earned him a spot on a competitive high school football squad, but when his college dreams collapsed, he turned to the U.S. Army. A few months later, he found himself serving in Iraq. When J.R.'s humvee hit a mine and exploded—just one month into his deployment—he was immediately evacuated to a San Antonio medical center, where he spent the next thirty-four months in grueling recovery. Seeing his disfigured face for the first time after the accident threw him into a crushing period of confusion and anger. His spirits were low, until he was asked to speak to another young burn victim. J.R. realized how valuable and gratifying it was to share his experiences with other patients and listen to theirs. He'd found a calling. His fellow soldiers, along with the local and then national media, soon latched onto J.R.'s spirit and strength. His resilience, optimism, and charm were also noted by Hollywood and scored him roles on *All My Children* and *Dancing with the Stars*, where he was the season thirteen champion. Today, J.R. tours the country sharing his story and his lessons for overcoming challenges and embracing hope, lessons that abound in this book. *Full of Heart* is an unforgettable story of a man who never gave up on his dreams. After being injured in Iraq, J.R. Martinez became a motivational speaker, actor, and winner of season thirteen of *Dancing with the Stars*. Martinez lives in Los Angeles

Take a look at life from behind the beverage cart. “They asked me to be groomed, be kind, and show up on time; it was too much pressure.” “It was like being a waitress, only I was hurtling through space and wound up in Paris.” “I thought it would be funny to climb into the overhead bin. How did I know the President of the United States would be on the flight that day?” Where flight attendant Marsha Marks goes, funny things happen, and she tells them all in this hilarious and insightful chronicle of her career as a naive flight attendant and a struggling author. From missed flights to missing uniforms, miracle babies to indecipherable southern accents, *Flying by the Seat of My Pants* is a laugh-out-loud

reminder of what is important and what keeps us steady through the turbulence of life. Prepare for turbulence as Nichole, a single 30-something flight attendant explores the world and herself while learning to love, laugh and stay awake on red-eye flights. In Peter Read Miller on Sports Photography, the 30-year Sports Illustrated veteran photographer takes you into the action of many of his most iconic shots, relating the stories behind the photos of some of the world's greatest athletic events, including the Olympics and the Super Bowl. Discussing the circumstances surrounding particular shots, Peter shares observations of the athletes themselves, and provides tips and techniques for sports photographers of all levels looking to capture great photos of football, track and field, gymnastics, and swimming, as well as dynamic portraits of athletes. Unlike photo collections by other greats of sports photography, this book seamlessly interweaves the images and the fascinating stories behind them with photographic instruction, while giving you an inside look at what it's like to work at the nation's leading sports publication. Beautifully illustrated with images from the Olympics, football, and portrait sessions with professional athletes, this book offers a rich and inspiring experience for sports photographers, sports fans, and Sports Illustrated readers. The astonishing, uplifting story of a real-life Indiana Jones and his humanitarian campaign to use education to combat terrorism in the Taliban's backyard Anyone who despairs of the individual's power to change lives has to read the story of Greg Mortenson, a homeless mountaineer who, following a 1993 climb of Pakistan's treacherous K2, was inspired by a chance encounter with impoverished mountain villagers and promised to build them a school. Over the next decade he built fifty-five schools—especially for girls—that offer a balanced education in one of the most isolated and dangerous regions on earth. As it chronicles Mortenson's quest, which has brought him into conflict with both enraged Islamists and uncomprehending Americans, Three Cups of Tea combines adventure with a celebration of the humanitarian spirit. A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past. This fine art monograph/faux underground comic facsimile is a psychedelic trip through the hippie movement. In 2017, Gary Panter created an art installation, Hippie Trip, inspired

by his first visit to a head shop in 1968. It expanded his mind to the possibilities of psychedelic art and music, analog crafts and drug culture. Crashpad is an extension of that installation and a riff on underground comics creators such as Zap's R. Crumb, Victor Moscoso, Robert Williams, and other icons of that era. Everything I Loved More is a roller-coaster collection of true short stories that follow a young man searching for sincere adventure along the tops of freight trains and mountain ranges. The danger can be nausea-inducing while he hangs on a single flexing hold of sandstone hundreds of feet off the ground or attempts to skirt the sexual advances of a meth smoking trucker while hitchhiking through the middle of nowhere. Between the many gripping scenes, his debasing humor acknowledges the foolish romance of it all. Beyond each singular exciting and hapless adventure, an important journey is told between the tales: the journey of a young man attempting to combat mental health issues with a potent dose of unabashed recklessness - and just how well it almost works. Robert Randolph reveals the "gay spa subculture" of the spas City Spa and Century Spa and its celebrity members.
